EMMA HAMLET

Seattle, WA | 646-284-1063 | emmaphamlet@gmail.com | LinkedIn | Portfolio | GitHub

EDUCATION

University of Washington **Expected December 2026**

B.S. Informatics, B.A. Psychology | GPA: 3.94/4.0

Relevant Coursework: INFO 360 (Design Methods), **INFO 380** (Product & Information Systems Management), **INFO 330** (Database & Data Modeling), **CSE 163** (Intermediate Data Programming – Python), **INFO 340** (Client-Side Web Development), **PSYCH 345** (Social Psychology), **PSYCH 209** (Fundamentals of Psychological Research)

EXPERIENCE

Workiva | IT Business Analyst Intern (Internal Product) **May 2026 - Present**

- Discovered through Customer Success interviews that 83% of interviewed users bypassed Gainsight C360 for R360 to access more relevant account information; identified the adoption gap, proposed a full C360 Summary Page redesign, and launched follow-up research to determine users' highest-value data needs.
- Translated interview and survey insights into 3 C360 UX concepts and identified navigation tabs for removal, renaming, or repurposing into Copilot; presented recommendations to the CPX Systems team, with the preferred call-prep design selected and built for beta testing.
- Led a 20-person cross-functional beta of the redesigned C360 experience, coordinating participant recruitment through CS directors and gaining VP-level visibility as Customer Success executives joined the beta channel to observe team feedback.
- Built the end-to-end beta enablement program, including a kickoff walkthrough video, self-service Wiki testing hub, standardized UAT scripts, feedback tracker, Copilot guidance, and dedicated Slack support channel to drive consistent testing and feedback collection.
- Synthesized beta findings into rollout recommendations; final survey respondents (n=8) reported 100% call-prep time savings—75% saved 1–4 minutes and 25% saved 5+ minutes, along with 100% positive layout sentiment and 100% support for launch after identified fixes.
- Designed and implemented 15 pre-built Gainsight Copilot prompts from real CSM use cases and created a prompt-library Wiki and demo video for Customer Success teams and directors to improve discoverability, adoption, and workflow efficiency.

@undeniablyemma | **Content Creator & Brand Partnerships** **Jun 2022 - Present**

- Built a 5,000+ follower audience with a 7% engagement rate and used A/B tests across content formats, posting times, hooks, and CTAs to optimize engagement KPIs and increase average interaction rates by 20-25%.
- Partnered with brand stakeholders including CVS, Fabletics, Hollister, Drybar, Merit Beauty, and Minute Maid to define campaign objectives, deliverables, and performance metrics.
- Featured in CanvasRebel's "Meet Emma Hamlet," highlighting innovative content creation, community-building, and strategic use of data-backed insights.

SELECTED PROJECTS

University Registration System Redesign | Academic Product Case Study

- Designed an end-to-end product strategy for a university registration platform supporting a 5,000+ concurrent-user scenario, translating user pain points into accessibility-focused requirements, OKRs, and an MVP roadmap using MoSCoW prioritization.

Music Consumption & Mental Health | Python | Notebook

- Analyzed survey data with Pandas and NumPy, applying exploratory analysis, hypothesis testing, and visualization to examine associations between music habits and self-reported mental health.

SKILLS

Product & Research: Product Discovery, User Research, Qualitative/Quantitative Research, Stakeholder Interviews, Requirements Gathering, Roadmapping, Beta Testing, Usability Testing, A/B Testing, KPIs, OKRs, Agile, MoSCoW Prioritization, Stakeholder Management, Survey Analysis
Design & Systems: Gainsight, Copilot Prompt Design, Systems Analysis, Figma, Miro, Wireframing, Prototyping, Jira, Confluence, Salesforce
Technical: SQL, Python (Pandas, NumPy), R, Excel, HTML, CSS, JavaScript, Azure, APIs, Data Visualization, Statistical Analysis
Professional: Communication, Collaboration, Problem Solving, Attention to Detail, Project Management
